## **Preparing Your Hide**

## Preparation for Custom Tanning – LEATHER

- > Remove excess flesh (fat, meat)
- > Lay skin hair side down and stretch the skin to prevent folds and wrinkles. Avoid laying hide on the concrete
- ➤ Apply the 1<sup>ST</sup> HEAVY coating of salt for 24 hours. Make sure to salt the outside flaps of the hide. \*\*DO NOT USE ROCK SALT\*\*
- > Shake/brush off the 1<sup>ST</sup> application of salt best of ability.
- > Apply a 2<sup>nd</sup> HEAVY coating of FRESH SALT for another 24-hours. Make sure to rub the salt into the hide.
- ➤ After the 2<sup>nd</sup> salting, hang hair side-down over a wooden 2x4 or PVC pipe. Hang by mid neck preferably and not touching the ground.
- > When the skin has dried to about 80% dry and whitens with slight flexibility, it is time to fold your hide.
- > This method will make the hide a lighter weight and will lower the shipping costs.

## Preparation for Custom Tanning - HAIR ON

- ➤ For Hair On custom tanning remove excess flesh (fat, meat, membrane) as best as possible. All of the extra fat and flesh must be removed from the head and the feet. \*\*If it is not cleaned properly, there will be a minimum 1-hour charge of \$45 for labor fees added\*\*
- \*\*For Bear, Coyote, Cougar, Bobcat, Otter, Raccoon or any other animal wanting to have face and feet tanned "ALL BONES MUST BE REMOVED FROM HEAD AND FEET" or the head and feet will be cut off and your hide will be tanned with out them\*\*
- > Roll the hide up and stick it in a bag and freeze it within 1 day of getting the animal. This will give the best chance of no issues when tanning.
- Avoid shipping the hide over the weekend. The best way to ship is to keep the hide frozen until ready to ship, preferably on a Monday or Tuesday using 2-Day shipping preferably. Put the hide in 2 bags and sealed. Newspaper on the bottom of the box or Styrofoam lining is very helpful as well.

## \*\* NOTE FOR TAXIDERMIST\*\*

The hide MUST be turned and salted before being shipped to us for processing or extra charges will be applied.
